1st position in design sprint in Samadhan Service project

"Generative AI?" by Pinar Seyhan Demirdag!

Rajkumar Rawal

Life long learner..| Generative Al Engineer | Founder/CEO Tech Parivartan| Everything started from "0", in hope to reach "1" someday | Interested in meetups to connect with people and learn from them and vise versa

Bāgmatī, Nepal

Summary

I love looking inside the hoods of software, opening them to understand the underlying design and principles which was used to build software to solve a particular problem. I believe the only way to develop in this modern world is to build the base of the software rock solid so that it can endure lots of changes.
